

Worldwide Leader in Steaming Equipment Since 1940

Uncovering a Steamy Past

Worldwide Leader in Steaming Equipment Since 1940

Jiffy Steamer traces its roots back to 1940. Gone with the Wind was the movie and Frank Sinatra, the Voice. Franklin Delano Roosevelt was preparing to run for a third term.

Most everyone of that era wore a hat. Stretching, shaping and blocking your fedora over a steaming kettle was common. This is where the idea was born – a better way to steam hats "back into shape in a *jiffy*." Shortly after 1940, the company was organized and the Jiffy® Steamer Model J-1 was patented.

Jiffy Steamer knew the invention was good for more than steaming hats, so a hose attachment and steam head were added. The new Jiffy® Steamer offered a revolutionary solution to an age-old problem of the clothing industry... removing wrinkles efficiently.

Today, three generations are involved in this closely-held company. Jiffy® Steamer Company, LLC is known around the globe (over 43 foreign markets) and is backed by over 1,000 dealers in the United States alone. The dozens of Jiffy® Steamer models can be found almost everywhere—from the commercial garment trade, to residential markets, in the pages of high-end mail order catalogs, in businesses that cater to the travel industry as well as in other specialty markets. The history of the Jiffy® Steamer is filled with the promise and desire to harness the power and magic of steam.

Why Steam?

Don't be a slave to your iron. Use what the professionals use...Jiffy® Steamers! The Jiffy® Steamer outperforms the alternatives and is up to five times faster than ironing. Wrinkles become smooth in an instant without scorching even the finest materials. You can flatten hard-to-reach places with steam where an iron could not get close. From hats, wigs, clothing, drapes, wallpaper, upholstery or even carpet, Jiffy's® compact and portable design is easy to handle and economical to use. Using our products could not be easier: simply fill the steamer with ordinary tap water, turn it on and in no time you'll have the power to steam most anything.

Regardless of the Jiffy® Steamer model you select, you can rest assured that it's the best-built steamer available and is engineered to last. Stainless steel, die cast aluminum and brass and high-impact engineered polymers are just some of the materials that go into manufacturing a Jiffy® Steamer. We put only the finest components and quality workmanship into our products so that they will provide years of service. That's why Jiffy® Steamers enjoy an excellent reputation among the discriminating buyers of the commercial marketplace. So, whether you are a technician operating a large industrial shop, a world-class traveler or a homeowner looking for that personal professionalism, you'll quickly come to depend on Jiffy® Steamer's quality for dozens of tasks.

ESTEAM®

Personal Hand-Held Series Jiffy® Steamer

Jiffy® Steamer's ESTEAM® is the most powerful hand-held steamer on the market. Made of the finest materials available, many years of research and testing were spent developing the ESTEAM®. This simple-to-operate steamer is ideal for use at home, in the office and on the road. The ESTEAM® is also a perfect gift for college students and newlyweds. The ESTEAM incorporates many of the same components used in our commercial grade steamers making it the finest hand-held steamer on the market.

ESTEAM® Features:

- » Up to 3 times more power than any other hand-held steamer on the market with 600 watts of steaming force
- » No internal water lines or pumps to become plugged
- » Uses plain tap water (no salt required)
- » Wide mouth, easy-to-fill water tank
- » Largest water reservoir on the market... 8 ounces
- » Over 15 minutes of steam per filling
- » Long power cord with molded storage clip for more manageable handling
- » Designed to fit neatly inside an attaché or suitcase
- » Numerous cord plug attachments available
- » 120 and 230 Volt units available
- » Made in the USA

Esteam® Converter & Adapter Plugs (at right)

Take your Esteam® worldwide and use it at 100% power. Our converter contains a 25 amp triac semiconductor for stable power output, large aluminum heat-sink to dissipate heat and a UL listed, flame retarding, non-conductive material used in the outer housing.

"Thank you for your help in choosing the correct model Jiffy® Steamer. I purchased the ESTEAM® travel steamer. The product arrived today (I really appreciate the timely delivery and the thoughtful response of your sales department), and I have already tried it out. The ESTEAM® performs better than I anticipated; in fact, much better than the appliance it replaced! Thanks again for your assistance."

residential

J-2 Original Series Jiffy® Steamer

Jiffy® Steamer's Model J-2 is used in homes worldwide. Owners of our Original Model J-2 have discovered the power and versatility of steam. The Model J-2 offers the power to remove wrinkles quickly and effectively, reducing the need to iron. Steam is so gentle that you can apply it to most any fabric without fear of scorching, unlike ironing. And the Model J-2 is extremely versatile-use it to remove wrinkles on clothing, tablecloths, bedspreads, and most any fabric. This unit incorporates many of the same components found in our commercial grade steamers and, with proper maintenance, will provide years of service.

J-2 Features:

- » Quick 2-minute heat-up time
- » 1300 watt heating element die cast in solid brass
- » Die cast aluminum outer housing for durability
- » 50/60 Hertz electrical system
- » Impact resistant 1-gallon water reservoir
- » New "no spill" check valve cap
- » Over 2 hours of steam per filling
- » Color-coded high temperature wiring
- » Fusible link with automatic shut-off for safety
- » 360 degree swivel casters for mobility
- » Assembly wrench included
- » 120 and 230 Volt units available
- » Made in the USA
- » Numerous cord plugs and steam head attachments available

"I have recently purchased your Jiffy® Model J-2 steamer. It is more than a fine steamer; for me it is a revelation. I don't think I will ever iron again. I never could iron well anyway. Thank you for your fine product."

residential

J-2000 Residential Series Jiffy® Steamers

As your drycleaner knows, steam is the gentlest, safest, most efficient method to remove wrinkles from fabrics. The powerful action of steam penetrates the fibers, relaxes them and causes the wrinkles to release. Unlike ironing, the gentle method of steaming increases the life of clothing.

Steaming breathes new life into fabrics; conversely, ironing crushes clothing fibers. Many users have found that steaming is up to five times faster than conventional ironing. The Model J-2000 has the same lightweight, flexible hose and easy-roll casters for mobility as the Model J-2, but with an updated design and several ergonomics features. This versatile Residential Series steamer has even been found by some owners to eliminate dust mites in bedding. You will enjoy discovering new applications for this powerful and flexible appliance in your home.

J-2000 Features:

- » Quick 2-minute heat-up time
- » High-impact polymer outer housing
- » 1300 watt heating element die cast in solid brass
- » 50/60 Hertz electrical system
- » Low profile, easy-to-handle water reservoir
- » New "no spill" check valve cap for easy filling
- » Over 1.5 hours of steam per filling
- » Color-coded high temperature wiring
- » Fusible link with automatic shut-off for safety
- » Assembly wrench included
- » 120 and 230 Volt units available
- » Made in the USA
- » Numerous cord plugs and steam head attachments available

Optional Metal Head with Wooden Handle

"I am very impressed with my Jiffy Steamer. As an engineer, I think the workmanship and design of the unit is very amazing. The magnet mounted wrench blows me away. Very clever and thoughtful. The three part hanger rod is a solid piece of workmanship. Great equipment considering I was a little hesitant to buy it; not sure if it would be quality goods. I will recommend it to all of my friends."

Low profile water reservoir on J-2000 model fits easily under sink faucets.

professional

J-4000 Pro-Line Series Jiffy® Steamer

The J-4000 Pro-Line Series is Jiffy Steamer's most powerful model designed for commercial purposes. Known as a durable "workhorse" in the industrial fabric and garment trades, the Model J-4000 is an essential tool in a multitude of applications ranging from removing wrinkles to retouching drapery to installing carpet. Coupled with the several available hose attachments, the J-4000 Pro-Line Series Jiffy Steamer is a welcomed presence in any industry.

J-4000 Features:

- » Durable die cast aluminum outer housing unit
- » Built-in, easy-to-read water level sight gauge also indicates sediment build-up
- » Color-coded high temperature wiring
- » Convenient PREHEAT and STEAM settings
- » Corrosion-proof internal 304 stainless steel boiler tank
- » 1500 watt incoloy heating element
- » 50/60 Hertz electrical system
- » Fusible link with automatic shut-off for safety
- » Over 1.5 hours of steam per filling
- » Assembly wrench included
- » 120 and 230 Volt units available
- » Made in the USA
- » Numerous cord plugs and steam head attachments available

"From our first purchase almost a decade ago to the most recent, Jiffy® Steamer's consistent concentration on quality has enabled us to sell thousands of these units. We have enjoyed great success in replacing imported products with Jiffy's® American-made steamers due to your superior engineering design and quality manufacturing."

J-1 and J-4000H Hat Series Jiffy® Steamers

These Jiffy® Steamers are used worldwide in rental outlets, supply houses and hat stores to block, stretch, crease, shrink or shape straw and felt hats. Ideal applications include removing nesting rings in seconds and freshening felt to a velvet texture. Safe for most materials and fabrics.

J-1 Jiffy® Steamer

The J-1 is our standard hat steamer for home or light commercial usage with 1300 watts of steaming power. Equipped with a plastic 1-gallon bottle with no spill check valve cap and brass hat nozzle. Heats up in less than 2 minutes.

J-4000H Jiffy® Steamer

The J-4000H is our heavy-duty commercial hat steamer with 1500 watts of steaming power. Equipped with a brass hat nozzle, it features a 1-

gallon self-contained stainless steel boiler tank with PREHEAT and STEAM settings. The J-4000H incorporates a sight gauge on the side of the steamer to view water level and sediment build-up at a glance. Heats up within 15 minutes to PREHEAT temperature. Produces steam within 2 minutes once at the PREHEAT temperature.

The Jiffy® Steamboard

The Jiffy® steamboard provides a convenient workspace for quickly setting pleats and creases. Ideal for clothing retailers, tailors and home use. Attachments enclosed with the board allow you to mount the unit to your baseboard, hang it over a door or mount it directly to the wall. Not for export.

Garment Tension Bar allows clothing to hang, keeping both hands free for steaming.

Jiffy® Liquid Cleaner

Our unique liquid de-scaler removes hard water deposits from Jiffy® Steamers. It's easy to use and it works on all Jiffy® Steamer models. Not for export.

JIFFY STEAMER 1 YEAR LIMITED PRODUCT WARRANTY

The Jiffy® Steamer is precision built, tested and inspected before leaving our factory. It is guaranteed against defects in material or workmanship for one year from date of purchase. Cords are excluded. If any part proves to be defective, this product will be repaired free of charge. A nominal handling fee does apply. This warranty shall not apply to any unit which has been subject to misuse, neglect, negligence or accidents. Such damage will be repaired at a nominal charge. JIFFY® STEAMER COMPANY, LLC shall not be responsible for any incidental, special or consequential damages. All implied warranties, including but not limited to, implied warranties of fitness and merchantability, are limited in duration to one year from date of original purchase. This warranty gives you specific legal rights, and you may have other rights, which vary, from state to state. Some states do not allow the exclusion limitations on how long an implied warranty lasts, so the above limitations and exclusions may not apply to you. If your Jiffy® Steamer requires service, ship it, with proof of purchase (include \$9.90 for shipping and handling) to the corporate headquarter's physical address.

These products and/or their components mentioned are covered by one or more of the following United States Patents: D421,165 / D423,156 / D426,924. The design and configuration of the Model J-2 is a registered U.S. Trademark.
